PROFESSIONAL EXPERIENCE

Penguin Coding School (Full-Time) Brooklyn, NY

Operations & Program Coordinator 08/25 - Present
• Coordinate scheduling, roster changes, and instructor coverage across 54 weekly classes serving 300+ students.
• Act as primary liaison for 300+ families and 5 lead instructors, ensuring timely communication and consistent program delivery.
• Anticipate and resolve scheduling conflicts to maintain uninterrupted class operations and reliable attendance records.
• Maintain daily operational readiness by managing enrollment updates, materials availability, and instructor assignments.

First LEGO League (FLL) Program Coordinator & Coach 09/24 - Present
• Coordinate operations for 7 teams, including scrimmage planning, tournament logistics, volunteer training (6), and parent communication.
• Organize scheduling, team assignments, and event preparation across 4+ annual competitions (with 3 additional events planned this season).
• Led teams to multiple regional awards: Rising All-Star, 1st Place Core Values (advanced to NYC Championships), Engineering Excellence, and 3rd Place Core Values.

Teacher 03/24 - Present
• Deliver structured Python and programming lessons while managing engagement and pacing for 90+ students weekly.

PROFESSIONAL PROJECTS

Operations Workflow Optimization Project — Penguin Coding School Sep 2025
• Centralized scheduling and coverage workflow for 54 weekly classes, reducing manual updates by 38% and daily coordination time from 2 hours to 1.25 hours.
• Implemented standardized communication processes for 300+ families and 20+ instructors, improving response time by 45% and reducing scheduling conflicts by 60%.

Project Planning Simulation — CBRE (Forage) Nov 2025
• Built project timeline, tracked budget, and maintained workflow documentation for simulated client engagement.
• Coordinated task sequencing and monitored milestone completion to support on-time delivery.

Systems Analysis & Project Planning — Independent Project Jun 2025
• Developed structured SDLC project plan including workflow mapping and critical path tracking.
• Defined project scope and organized deliverables into phased implementation stages.

Personal Portfolio Website — GitHub Mar 2025
• Designed and organized multi-page portfolio website to present projects and documentation clearly to stakeholders.
• Structured navigation and content layout to improve clarity and ease of information access.

Fundamentals of Predictive Project Management — Project Management Institute Apr 2025
• Applied predictive planning, risk mitigation, and task delegation concepts to structured project tracking.
• Practiced breaking projects into tasks and monitoring progress against planned timelines.
